Leveraging extensive retail with a focus on customer service and team collaboration, complemented by a comprehensive Full Stack Developer course, I aim to blend technical innovation with client-centric solutions. Eager to apply my programming skills in Python, Django, Javascript, React.js to develop user-friendly applications, I seek a role that marries my passion for technology with my proven track record in enhancing customer experiences and driving sales through technological solutions.

Work Experience

Freelancer   **Upwork**   **Jan 2023–Present**
- Assisted in DevOps talks and website enhancements, including implementing new features for an existing Shopify site to improve user experience and functionality.

Mobile Expert   **T-mobile**   **Aug 2020–Present**
- Managed daily store operations, including opening, closing, and executing planogram adjustments.
- Ensured financial accuracy by balancing registers and making nightly deposits.
- Drove sales of T-Mobile products and services, effectively managing new and existing accounts.
- Leveraged specialized tools to identify and secure new business accounts, enhancing customer base.

Retail Sales Rep   **Sprint**   **Dec 2018–Aug 2020**
- Conducted daily store operations, including opening and closing procedures, with accountability for financial transactions and deposits.
- Excelled in sales roles, promoting Sprint products and services to both new and existing customers, consistently meeting sales targets.
- Maintained register accuracy and performed end-of-day financial reconciliations to ensure fiscal responsibility.

Retail Store Manager   **TPR Chicago**   **May 2015-Dec 2018**
- Consistently met and exceeded sales goals and metrics through effective sales strategies and employee coaching.
- Provided hands-on technical troubleshooting expertise and served as a critical stakeholder in Marketing, Sales, and Operations.
- Trained and coached new employees to deliver exceptional customer experiences.

Education and Certifications

- **Software Developer Certificate,** DevCodeCamp.   **Oct 2022**
- **Diploma,** Niles North High School.   **1997**

- Other: Data structures and algorithms, {other relevant skills}

Projects

DJ Karaoke Website

- ○ Redesigned a user-centric DJ Karaoke website, enhancing user interface and functionality, enabling singers to sign in and queue songs for performance.
- ○ Demonstrated proficiency in full-stack development using Javascript, Reactjs, AXIOS, Python, Django, REST Framework, MySQL, and Bootstrap, ensuring a seamless user experience.

Youtube Clone

- ○ Developed a Youtube Clone with features including user account registration, login/logout, and video search functionality mirroring the core features of YouTube.
- ○ Implemented YouTube API for video playback and related video features, leveraging JavaScript, React.js, Python, Django RESt Framework and Google Charts for analytics visualization.

Wedding Tracker

- ○ Created a single-page Wedding Tracker application to monitor live stream viewership, featuring real-time registration information forwarding to email.
- ○ Utilized React.js, Javascript, and Tailwind CSS to deliver a responsive and functional user interface.
